

StackinSat présente

SURFIN' BITCOIN

La conférence

AU CASINO DE BIARRITZ

Les 25, 26 et 27 août 2022

PRESS KIT

HISTORY OF SURFIN' BITCOIN

The starting point was on January 3, 2020 when Jonathan, Josselin and Mathieu created StackinSat - an auto DCA Bitcoin savings platform.

Very quickly they realized that there was a lack of information or even misinformation about Bitcoin in France and Europe.

So on October 2, 2020, despite of COVID and Alex storm that hit Biarritz they decided to hold a conference on the subject by inviting experts from all walks of life.

Against all expectations this first edition turned out to be an immediate success and this is how the Surfin' Bitcoin adventure began.

the founders of StackinSat and Surfin' Bitcoin : Mathieu, Josselin, Jonathan

Surfin' Bitcoin already has 1,000* participants and 130,000* views:

The largest Bitcoin conference in Europe

**in total over the previous editions*

OUR GOAL

BITCOIN, BITCOIN, BITCOIN

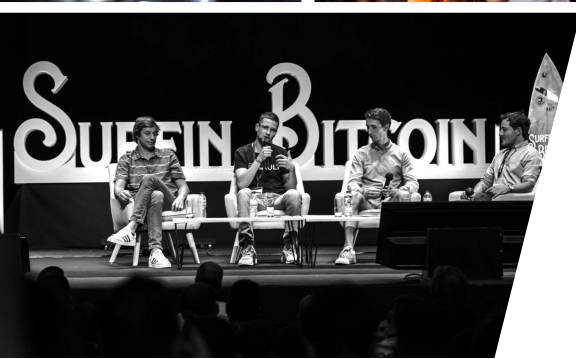

The Conference 100% Bitcoin in Biarritz

Our will is expressed in our bias :

“Bitcoin is the only alternative to the current debt based currency system”

While informations related to Bitcoin and other crypto, blockchain, NFT (...) are confused or misleading, our goal is to offer an enlightened look at Bitcoin through speakers recognized for their expertise, with keynotes, roundtables, educational workshops and a large number of fun entertainments....

... But also to **stimulate debates and contradictions.**

Our mission : Making bitcoin accessible to everyone

Bitcoin is a vast subject that may seem very difficult to understand because it requires the ability to grasp a new paradigm and question the way the current monetary and financial system works.

Our content is also aimed at beginners who want to better understand bitcoin.

We want to train and inform as many people as possible.

OUR AMBITIONS

Creating bitcoin content for all levels

Bringing together and highlighting the European Bitcoin ecosystem

Creating a friendly annual event dedicated to Bitcoin in the Basque Country

SEVERAL AUDIENCES

Adapted and customized content

Adapting to an ever-changing audience

- Bitcoiners 30%
- Crypto fans 60%*
- Crypto curious 10%*

*including professionals who want to learn and especially those who want to be more connected to the BTC ecosystem

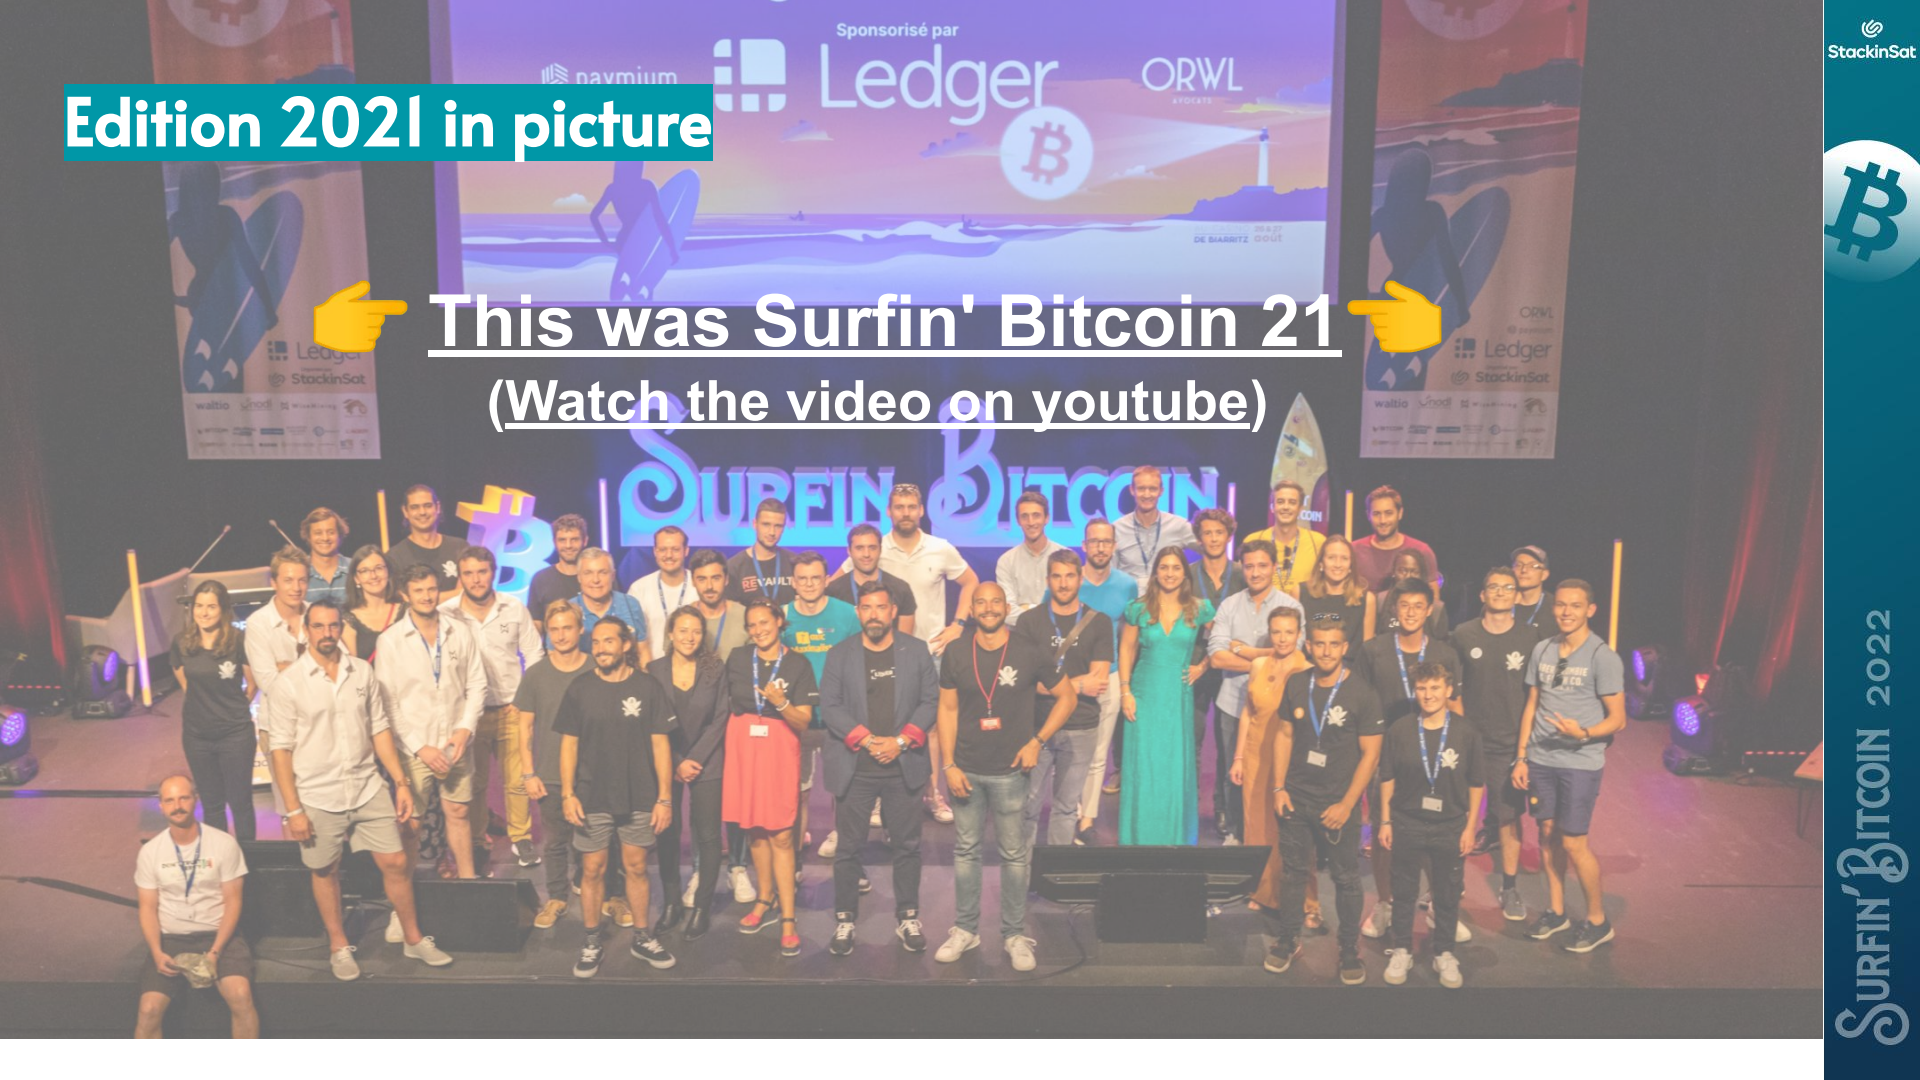

Everyone has different needs and expectations so the 2022 edition reinvents itself to meet them all.

2 plenary rooms with the same topics but with 2 different approaches, pedagogical or practical workshops. 1 day dedicated to professionals and bitcoiners.

SURFIN' BITCOIN 2022

At least 1,500 participants expected

Surfin' Bitcoin 2022

- 2 days of conferences at the Casino of Biarritz
- Exclusive networking events
- More than 70 speakers
- At least 1,500 participants expected

Surfin' Day & Networking Night Thursday, August 25th, 2022

Conference Days :

Friday, August 26th

AM : Finance & Regulation / PM : Economics & Geopolitics

Saturday, August 27th

AM : Mining & Energy / PM : Tech & Tools

Networking to promote business exchanges

Conviviality is a very important aspect of the conference. We organize networking moments to encourage exchanges between participants.

We want to bring the Bitcoin ecosystem and the traditional finance world together so that exchanges and connections are made in our industry.

A dedicated networking application will be provided

The economic potential of Bitcoin is very important and French entrepreneurs need to meet its players in this international competition.

Surfin' Day - August 25, 2022

On the eve of the conference, we'll be offering the public and tourists on site a number of events that will allow them to discover Bitcoin and even win some satoshis.

Friendly events throughout the day to create as many meeting points and synergies between the actors of the Bitcoin ecosystem.

- Surfing exhibition
- Animations on the beach
- Exceptional evening in the heart of Biarritz

Screening-Debate The Satoshi Mystery - August 25, 2022

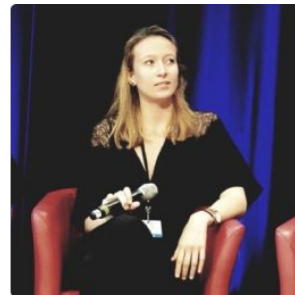

The **Satoshi Mystery**, directed by Rémi Forte, deciphers the inner workings of the Bitcoin revolution while investigating the identity of its enigmatic creator, who has remained anonymous until now.

A screening of the documentary film is planned from 6pm, which will be followed by a debate with the main protagonists of the film.

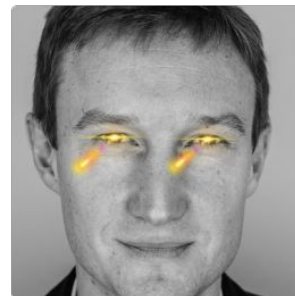

Free, open to all

Rémi Forte
Author Director

Claire Balva
Head of Blockchain KPMG FR

Yorick de Mombynes

Press

A TV set will be set up during 2 days in partnership with BFM Business with programs for live reactions and decoding.

A press room will be available for journalists to write their content and spaces equipped for interviews.

150m2 with secure wifi, desks, printers, smartphone chargers and catering to ensure the best working conditions.

Workshops

Collaborative and interactive workshops allow a maximum of people to contribute to a concept or a problem, they are perfectly in line with Surfin'Bitcoin's DNA.

We propose 2 equipped and modular spaces to host workshops according to the themes of Bitcoin and Lightning Network declined for this edition on 2 levels of expertise.

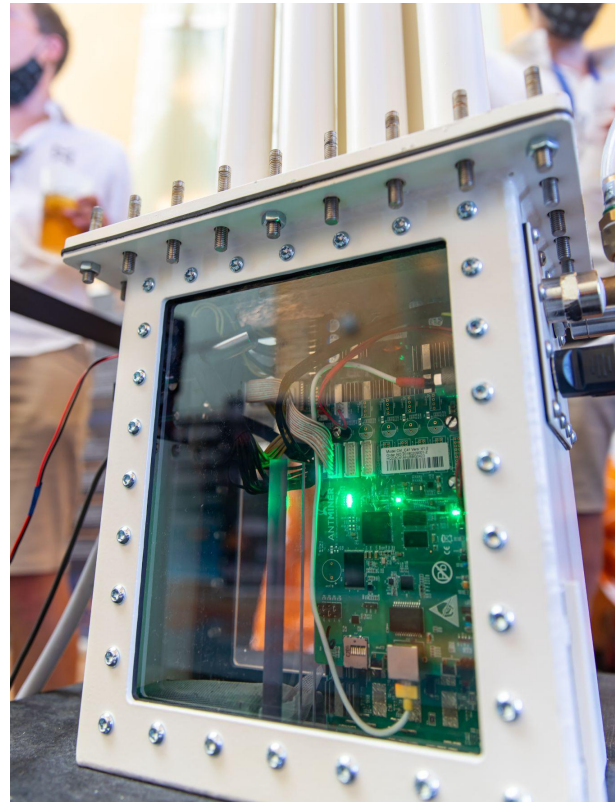

Workshops Focus on Lightning Network

The workshops will be mainly dedicated to "technology and tools related to Bitcoin and Lightning protocols".

We will have many **developers from bitcoin core, Lightning network** and also **researchers**, specialized in topics like connected environment or computer security.

We want to inspire and **create a synergy** between developers, companies, researchers and teachers in Europe.

**The organization reserves the right to validate the axis of speech to remain true to the positioning of Surfin'Bitcoin.*

Stand

In the heart of the Biarritz casino, Many companies will exhibit their products and/or services on stands..

**The organization reserves the right to validate the axis of speech to remain true to the positioning of Surfin'Bitcoin.*

Animations

Fun and educational activities to better understand the use of wallets and payment in Bitcoin.

An exhibition to enter the Bitcoin universe and have fun.

A space of more than 450m2 imagined as a friendly place to network and learn according to your level of expertise.
